MTSU Online Undergraduate Degrees

B.S. in Professional Studies
This 120-hour program consists of foundation courses in communications, statistics, supervision, organizational systems, and organizational relations. Students may choose from four concentrations including Healthcare Administration, Organizational Leadership, International Organizational Leadership, and Information Technology.

B.S. in Liberal Studies
This 120-hour program can be tailored to meet the individual needs of students. The student and advisor decide upon two areas of emphasis to help the student meet his or her own personal and professional goals.

B.S. in Psychology
The psychology cohort program is designed for students with varied career goals and interests. The program offers examination of the principles, methods, findings, and theories of psychology for students preparing to work in a variety of professions.

R.N. to B.S.N.
The R.N. to B.S.N. is a bachelor’s program consisting of an exciting mixture of online courses and real-life experience provided through clinicals. This degree is designed to prepare graduates for nursing practice, education, administration, or research.

MTSU Online Graduate Degrees

Master of Professional Studies (M.P.S.)
The 33-hour M.P.S. program is designed for working adults who wish to pursue graduate professional studies. Students may choose from two concentrations including Strategic Leadership and Training and Development.

Master of Education (M.Ed.)
The M.Ed. program offers advance professional preparation for practicing teachers. Choose from concentrations in Advance Studies in Teaching and Learning, Curriculum and Instruction, or Administration and Supervision.

Education Specialist (Ed.S.)
The Ed.S. program is designed for individuals seeking to increase their skills for advanced licensure requirements or other professional objectives.

Master of Science in Nursing (M.S.N.)
The M.S.N. degree seeks to prepare professionals for a wide range of healthcare job opportunities related to nursing.

MTSU Hybrid Degrees

B.S. in Recording Industry
This world-class 120-hour program offers concentrations in Audio Production, Music Business, and Commercial Songwriting.

Bachelor of Business Administration (B.B.A)
This 120-hour program is designed to prepare students seeking to enter the corporate environment. Majors include Office Management, Management, and Marketing, which all require some on-campus courses.

B.S. in Business Education
This 120-hour B.B.A. program offers a teacher certification option that gives graduates the eligibility to teach business subjects in high schools and technology centers. The non-teaching option allows graduates to specialize in training and development.

Master of Business Education (M.B.E.)
The M.B.E. program seeks to prepare professionals to train in the corporate environment or teach business subjects at high schools and technology centers.

Master of Business Administration (M.B.A.)
The 36-hour program offers professional graduates advanced skills in Accounting, Economics and Finance, Computer Information Systems, and Management and Marketing.

Master of Social Work (M.S.W.)
This 60-hour program is designed to prepare graduates for immediate entry into direct human service professional positions with the skills needed to promote change in the lives of their clients.
